### PROFILE

Detail-oriented and passionate web developer with experience in developing scalable and efficient web applications using the MERN stack. Proven track record of building and maintaining web applications in a variety of industries. Seeking to bring my expertise and skills to a dynamic team in Dubai.

### PROJECTS

#### Chat App

- Description:** Implemented a real-time chat application using WebSockets and Node.js, enabling users to communicate in different chat rooms.
- Technologies Used:** React, JavaScript, Express, WebSocket, MongoDB, Axios, Tailwind CSS, HTML, CSS.

#### My Blog

- Description:** Built a blog application where users can create, edit, and delete posts. Integrated with a rich text editor
- Technologies Used:** React, JavaScript, Appwrite, use-hook-form, TinyMCE, Tailwind CSS, HTML, CSS.

#### Amazon Clone

- Description:** Created a clone of Amazon's website using vanilla JavaScript. Developed a full-featured e-commerce platform with product listings, and shopping cart functionality using the Vanilla JavaScript.
- Technologies Used:** Vanilla JavaScript, HTML, CSS.

### WORK EXPERIENCE

#### Full-Stack Developer

TriVA

2024

- Developed and maintained web applications using the MERN stack.
- Collaborated with cross-functional teams to define, design, and ship new features.
- Implemented responsive web designs to enhance user experience.
- Optimized application performance, improving load times by 30%.
- Conducted code reviews and mentored junior developers.

#### Font End Developer

Azan International

2022 - 2023

- Created user-friendly web pages using React.js and Redux.
- Worked closely with UX/UI designers to implement design specifications.
- Ensured high performance and compatibility of web applications across different platforms and browsers.
- Participated in Agile development processes, including sprint planning and daily stand-ups.
